## Solutions

### Treatment of chronic wounds

m-u-t has developed and produced a DC pulse generator for a worldwide provider of medical devices. Together with the customer's hydroactive wound dressings this system can support and accelerate the wound healing process of chronic wounds. Regarding this application, the full range of services is covered by m-u-t.

- Mechanical design
- Development of control system (electronics and Software)
- Product documentation for the customer's regulatory requirements (e.g. CE certification)
- Serial production of the module at the Wedel site

m-u-t GmbH  
Am Marienhof 2  
22880 Wedel  
Germany
